## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest a method of fabricating an optical device comprising all the specific elements with the specific combination including a method of depositing a second material on the second side of the first substrate such that deposited second material substantially cancels the effect of thermal stress on the first light guiding structure as set forth in claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
